

CSU COLD STIM Meeting Minutes
October 13, 2022 3:00 to 4:00, via zoom

Present: Mike DeMars, Cyril Oberlander, Carlos Rodriguez
Absent: Erik Beck, Keven Jeffery, Christina Mune, David Walker

Meeting Agenda / brief notes...

1. [Python Workshop](#): need to work on the workshop details and prepare marketing.
2. Makerspace Community of Practice

COLD approved forming a Makerspace Community of Practice, we should be hearing more from Karen Schneider and others. Attendees discussed their Makerspaces, and Cyril shared the following article:

Living Lab: <https://ddd.uab.cat/record/234540> Hernández-Pérez, Oskar; Domènech i Argemí, Miquel; Vilariño Freire, Fernando. Public libraries engaging communities through technology and innovation: insights from the Library Living Lab. Public library quarterly, 2020. DOI 10.1080/01616846.2020.1845047

And recently visited Sacramento State University Library's Makerspace:

Sacramento State University Library

Carlsen Center for Innovation & Entrepreneurship

Library Makerspace or as the article I recommended reading... Living Labs.

If you are interested in seeing Cal Poly Humboldt Library's, check out [Google Maps...](#)

3. Call of Agenda Items

ScholComm Committee - STIM Liaison - Cyril will send out an email... anyone interested?

I am the current chair of the COLD ScholComm committee and Mike and I were spending some time last week going over what we need to do to get the committee up and running. It looks as though our membership needs a liaison from STIM recommended by the STIM chair that will serve on both committees. Do you have someone to recommend? If you would like to see more information about ScholComm:

<https://calstate.atlassian.net/wiki/spaces/COLD/pages/612171777/COLD+Scholarly+Communications+Committee> If you have any questions, please do not hesitate to let me know!

Dr. Tracey Mayfield, Ed.D. Interim Dean - University Library

4. Short a few members... Ken Herold, new systems librarian, interested in STIM, willing to have him; he is on ULMS Discovery Functional Committee, he could serve as the ULMS liaison.

5. We should specify Liaison relationships to define connections we want to maintain; scholcomm, ULMS - find out.

Round of information sharing...

- Consider this professional development in case you want to see plenty of EdTech startups: ASU + GSV Summit: <https://www.asugsvsummit.com/>
- David Walker shared via email: We're doing a lot of evaluation at the CO right now, especially around Rapido and the forthcoming Digital Archives. So, nothing too cool. But activities that prepare us for major strategic initiatives down the line, especially with Rapido and the potential for a state-wide resource sharing program.

ELUNA Conference / CSU ULMS and/or STIM Meeting

- California Eluna Group - Brandon got folks together at Atlanta, years back, interested in another meeting possibly January; perfect opportunity to get the California crowd together, and possibly piggy back for a STIM Meeting with that and/or ELUNA or summer again.
